SUMMARY

Front-end developer with extensive knowledge about front development such as user experience and backend which uses schema development. I worked as a full-stack developer for 5+ months and grew rapidly by learning new plenty of skills. I enjoy collaborating with peers and acquiring new technology for better products.

SKILLS

Framework, libraries and environments: ReactJs, NextJs, Redux, NodeJs, Express, Sass, Tailwind CSS
Systems, CMS and databases: GraphQL, Apollo GraphQL, Typeorm, Docker, SQL, MongoDB, Git
Languages: JavaScript, TypeScript, HTML5, CSS3
Testing: Jest, React Testing Library

EXPERIENCE

Full Stack Developer, Argano Inc.   5+ months(2022 Mar – Jul), Japan
· Maintained and operated an educational service, using NextJs, Apollo GraphQL, MySQL, and TypeORM mainly, which helps users to find an online tutor.
· Implemented scripts that enable to load CSV files automatically which had been typed by hand and increased efficiency by 50%.
· Create the specification to avoid the double effort due to the miscommunication
